DETAILED ACTION

Informal Examiner's Amendment

The "New Application Transmittal" papers filed on July 16, 2003 claim the benefit of prior U.S. applications in section 17., subsection B., but the Preliminary Amendment filed on July 16, 2003 does not amend the specification to include the prior U.S. application data. By way of this informal Examiner's amendment, the following claims for benefit of priority are inserted immediately after the patent application title on page 1 of the specification:

--This application is a divisional of application number 09/895,470 filed on June 29, 2001, now U.S. Patent No. 6,706,418. The nonprovisional application designated above, namely application 09/895,470, filed June 29, 2001, claims the benefit of U.S. Provisional Application 60/215,664, filed July 1, 2000.--

Allowable Subject Matter

Claims 15, 16, 18 to 24, and 27 to 31 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art search has not produced any references which teach, suggest, or disclose applicants' claimed method of depositing a solderable finish on an electronic device substrate comprising the electrolytic deposition of a metal from an electroplating composition which must include at least one grain refiner/stabilizer additive comprising one or more hydroxylated gamma-pyrone compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
